I am a practicing artist and experienced teacher.

After 20 years of teaching I am devoting more time to developing my own work. I have chosen to develop a technique in mixed media mosaic, combining elements of my interest and experience in Stained Glass, Graphics and Painting. I am keen to exhibit work that is meaningful and decorative in the best sense of the word! I have had some success with selling my work and am pursuing installation and educational projects in the community. I have a place to study for an MA in Craft at Brighton University this year.
