The Course

We will go through the different stages and possibilities in mosaic making, looking at materials, cutting, designing, sticking and grouting.

There will be freedom to develop your own ideas and more experienced mosaic makers can proceed at their own pace.

My Studio

I have space for 4 mosaic makers in a light and comfortable space. There are many examples to inspire and a wide range of tools and materials for you to use. I like to work with mixed media and have ceramic tiles and broken crockery, glass, found objects and more! You are welcome to bring your own materials if you have them.

Emma Harding

I have worked as an art teacher for over 25 years, producing my own work in painting and illustration. In the past I have also worked in stained glass and graphic design. Its about 8 years since I discovered mosaic and love working with my hands in this most exciting media! Mosaic has so many different aspects. I am still exploring!
